Authorization for this examiner's amendment was given in a telephone interview with Paul Gornall on 9/13/07.

The application has been amended as follows: Specification page 7 insert between Figure 3B and Figure 4.

Figure 3C shows the bay window switch box cover plate is then attached.

2. This action is responsive to communication filed 6/7/07.

the prior art. The distinguishing feature is that the cover plate is specifically a bay window cover and in which and the bay window switch box and window frame is rotatable back and forth horizontally to orient the surveillance device and the bay window's vertical orientation being defined upon mounting of the switch box and remaining constant during and after pivoting of the bay window for horizontal orientation. Claims 2-12 depend on claim 1. Therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
